

The Lomond Press

VOL. 1. NO. 45.

LOMOND, ALBERTA, FRIDAY, JUNE 15, 1917.

\$1.00 PER YEAR.

LOCALETS

Unofficially we have learned that George Whitley is in a hospital in England recovering from shrapnel wounds.

J. A. Bowers is enjoying a visit from his mother, who recently arrived from east.

Miss Wilson, of Ontario, is visiting with her sister in Lomond, Mrs. (Dr.) Walkey.

Mr. and Mrs. C. R. Adams and Mr. and Mrs. Gordon Varcoe spent from Thursday to Saturday of last week in Lethbridge.

Remember "Egg Day" June 27th, 28th and 29th.

Jas. Marshall's father, R. Marshall, is out from Wingham, Ontario visiting his sons in Alberta and spent a few days in Lomond last week.

Tom Rodgers, Cap Blake and Geo. Leeming were pulled up before W. H. Smith, J. P., on Wednesday on a charge of raising a disturbance while under the influence of booze the night before. The first two were given a fine of \$50.00 and cost, the latter being dismissed.

Mr. Signor is visiting his daughter, Mrs. N. T. Owens.

F. O. Cox is a business visitor in Calgary this week.

Mr. Cruthers, of Granum, is relieving agent at the Farmer's Elevator here for a few months.

The Press is this week without a printer, Mr. Allingham having pulled his stake for Calgary.

Mrs. H. J. Duffy and family have returned to Lomond to reside. Recent word from Mr. Duffy who is on active service in France would denote that he has been assigned to a clerical post and is thereby relieved from duty in the trenches.

J. A. Bowers unloaded a car load of Chevrolets this week. Prior to this shipment he had made twenty-six deliveries this summer. J. A. states that the greatest difficulty in the business this summer is to get cars for the customers.

Lomond being this year an examining centre pupils writing entrance and tenth grade papers will report to Principal Lowe on the morning of June 18th. Ninth grade pupils will commence on the 25th.

Mr. and Mrs. W. A. Teskey are away to Lethbridge attending the convention of Ford salesmen.

It would almost appear that there will be a continuation of development on the South Alberta Land Company's irrigation project. The chief engineer took a trip of inspection over the work this week, stopping in Lomond over Monday night. He was accompanied by Dr. Redding of the Canada Security Company.

LOMOND FAIR

The Department has set Aug. 6th and 7th as the dates for the 1917 fair. The executive are at work on the prize list and same will be printed and issued at an early date.

It is proposed to have an attractive sport programme in connection with the fair along with other special attractive features.

Egg Day

The ladies of the Red Cross Society are planning for an "Egg Day" in connection with their work to help the Red Cross Military Hospital at Ogden, Calgary. They are asking that everyone will contribute eggs on any of the following days: June 27th 28th and 29th, to be shipped in crates on the last day to the hospital. There will be boxes in all the stores where those wishing to help on this worthy cause may put their eggs or leave them at the church where they will be crated.

PARKER-AMBLER

At Calgary, June 7, by the Rev. A. W. R. Whiteman, B. D., Knox church, Miss Allip Ruby Jeanette Ambler, of Wetaskiwin, and Mr. Abraham Parker, of Lomond Alberta were married.

We can't just exactly say this was a surprise to Lomond as Abe had exhibited nearly all the symptoms of a matrimonial prospect for a good while. Nevertheless the Press offer the best of Congratulations and if we smoked would take three cigars when the box was opened.

Road Work Begun

It feels good to be able to report actual progress in the matter of road improvement, a gang being now at work south of town under the supervision of D. A. McArthur of Crossfield. There is about a month's work in this two and a half mile stretch.

To the Electors of Lomond and District

Ladies and gentlemen:—

Permit me this opportunity to express my warm appreciation for the generous support you have given me in the recent election in electing me as your representative to the legislature of the Province.

I pledge myself to support any progressive legislation in the interests of the people unbiased by any party affiliations.

Yours to command,

Jas. McNaughton.

BASE BALL

The locals ran up against hard luck again last Friday at Stavely, being beaten by a score of 15-11.

Lomond won the first home game of the season, after a rather black beginning in several games away from home. The score was 15-5 against Travers. Wigg is back on the line-up again and as usual pitched a good game. The local boys pounded Travers pretty hard.

Keep it up boys.

Council Minutes

A Meeting of the Council was held in the I. O. O. F. Hall, Lomond on Monday June 11th, there being present T. Chapman, P. Noyes, A. R. Hanna with J. A. Marshall in the chair.

Minutes of previous meetings were read and adopted.

Petition asking for extension of Travers New Road was presented and moved by T. Chapman, that same be tabled pending survey by surveyor.

Secretary read letters received from Munson Allan, Laird & Davis, Winnipeg re land appropriated for road purposes on the north line of the N. W. 1 of 4-15 19 and following which it was moved by A. R. Hanna that notion of previous meeting to pay Mrs. Elgin for this land be rescinded. Carried.

Moved by P. Noyes that secretary communicate with the above firm asking them to apply for compensation for land. Carried.

Lomond New road was again given some discussion and as it was thought desirable to make an endeavor to have a crossing surveyed across Snake Valley for a road it was moved by P. Noyes that secretary notify all Rate-payers on this new road east and west of Lomond who have not yet agreed to take settlement to have their fences moved on to the proper line within 30 days otherwise fence will be moved by Municipality and cost charged to Rate-payer owning such fence. Carried.

The following were approved for payment:—

R. Bedford, Travers New Road	\$4.00
Stacey Lumber Co. Travers New Road	3.95
Canada Ingot, Iron Co. Culverts and Machinery	\$597.95

It was decided to hold a Court of Revision at next meeting at Travers on Monday July 9th at 1 p. m.

Meeting then adjourned.

Jack Haight Gets a Commission

Mrs. L. Thiesmeyer this week received a cable message from Jack Haight stating that he had been given a commission as Lieutenant and had joined a flying squadron at Netherhaven, Wiltshire, England. Jack's numerous friends in this vicinity will be glad to learn of his promotion.

TRAVERS

A goodly number from here attended the dance at Enchant last Friday evening.

Mr. Dan McPherson and Mr. O. Scott each have purchased new Dodge.

Mrs. Guy Paulson has a cousin from Montana visiting her.

George Goeson and family from Granum drove over on Sunday in their new McLaughlin. Mr. Goeson has two sisters living here, Mrs. Jay Rickett and Mrs. Oscar Olson, whom they visited and numerous old acquaintances.

Mr. Less Lawrence and Guy McCann were Vulcan visitors over Sunday with the former's parents.

Geo. Whitting, Fred Bannister and Dan McPherson were to Calgary on business this week.

Al Greenman is driving a new Ford.

Mrs. Ruth McCann has been quite sick all week with the German measles her mother has been caring for her most of the time.

Mrs. Cyres died early Monday morning at the hospital in Lethbridge from the injuries sustained by the team being frightened and throwing the occupants out. She had never yet regained clear consciousness since it happened some two weeks ago. We did not learn where interment was made but presumably at Lethbridge or Bowville.

Mrs. Lola Clark left on Wednesday train for a summer visit in Minnesota. She expects to stop off at St. Paul and have her operation for appendicitis at the home of her sister who is a trained nurse.

Another fatal accident occurred on Wednesday evening. Mr. Elgin being kicked by a horse and dying soon afterwards. Mr. Elgin is one of the first settlers in the district and is well known. Mrs. Elgin has the deepest sympathy of the entire community in this sad hour.

Harry Lynk has secured a well which will supply about 20 bbls. of water per day and seems good for drinking and farm stock both. He is now putting in a pump with an engine attached and doesn't expect to have to haul water any longer.

Well, another game is over on the half holiday Travers journeyed to Lomond and got beaten by 10 scores, Lomond making fifteen which is a good showing for them as it is about the first game they have won this season. They have now a good pitcher and catcher, which is most beneficial.

THE NEW DEPOT

A couple of car loads of gravel have been unloaded for the new Lomond depot.

LOMOND, ALBERTA, JUNE 15, 1917

News From France

In France,
May 19 th., 1917.

Dear Mr. and Mrs. Tulloch:

Very many thanks for your letter and papers, you will, I suppose, have thought there was never an answer but I was expecting to go to France any day, so thought you would prefer it from there.

Well, I have been here a few weeks now and have seen quite a few sights and I must say lots of ruins. The stories you read of the outrages perpetrated by the Huns are true enough, the only fault, to my mind, they do not describe as fully as they should. There is no crime that I know of which these fiends in human shape have not done. Towns and villages lying in ruins, the populace robbed of all its vitality and youth and there are things which I could not speak of or write. All these things but tend to make all of us do our little bit, with all the more vim and the greater determination. They deserve to suffer and if we can make them, they shall, as they have done things which call upon every civilized being to avenge. All things seem to be going in favor of the Allies but there is a great deal to be done and needs every person's help in the Empire to do it, in their separate ways.

I am forbidden to say where I am, but address you will find in the letter as you read.

The other night, to be exact, two nights ago, I saw a German aeroplane brought down and it pleased us all very much, for much as we all admire bravery of these men must be always counteracted by the awful sins of their comrades and it almost seems as if these acts are but those of a natural coward who finds himself, as it were, being beaten, and so says to himself, "Well, if I can't have the hand, I will spoil it for you."

I remain,
Yours very sincerely
228148 P. Hesketh.

P. S. Please tender my regards to all at Lomond and expect another letter in a week or two.

Buy a membership ticket in the Lomond Fair from Secretary Elves.

NOTICE

As children playing with had waggons on the sidewalks have become a public nuisance, we would ask the parents of these children to see that it is discontinued. If this notice fails to have the desired effect it will be necessary for us to take steps to prevent it.

At my Garage in Lomond.

Buying a Ford is a business proposition.

Did you ever notice that fully ninety-nine per cent. of the commercial travellers covering Southern Alberta by motor use the Ford Car? Do you know the WHY? It is because they stand the use and abuse on the country trail at a minimum expense. What it does for them it will do for you.

Badger Lake

Cap. Calkins is enjoying a visit from his son, who has come up from the States.

Mr. and Mrs. Alfred Durand, of Chicago, have come to Canada to locate and are at present staying with Mr. Durand's brother. Mr. Durand is an experienced plaster and is plastering his brother's house.

Geo. Hauger is a happy bachelor these days, having a lady cook in the person of Miss Dahl, recently of Wisconsin.

Sunday School is to be started again in the First Chance school.

We all enjoyed the splendid rains.

George Pettit is leaving again for Ontario, he having disposed of his homestead to Mr. Boner, of Champion.

We wish elections would come quite regular, as road improvement might be looked forward to. A couple of bad holes along the post office road have been graded up.

Miss Carpenter left on Friday last for the States, having spent the past few months here, during which time she taught successfully at the First Chance and Midway schools.

Born To Mr. and Mrs. Frederick Hart on Thursday June 7th a nine and a half pound baby boy. Mother and child are doing nicely and papa is wearing a broad smile.

Amethyst Localets

Mr. and Mrs. Elmer Alexander and Miss Bernice Hill spent Sunday with Mr. and Mrs. L. C. Somerville.

Mr. Edd Welch stole a grand march on the people and took Miss Ethel Armstrong in partnership for life last Tuesday, June 5th., 1917. They are spending their honeymoon at Banff, or at least a part of it. All friends and neighbors wish them a long and happy life.

The Ladies Aid met at Mrs. Seth Somerville's and sorry to say very few came. Mrs. Somerville had a lovely lunch and all enjoyed it. The next meeting will be at Mrs. Geo. Smiths on Friday afternoon, June 22nd.

Mr. Swan Odland has bought the south half of Hudson Bay, section

eight and Mr. Larry Armstrong has bought the north west quarter Hudson Bay section eight. It seems Wm. Hill set the land bug busy in this neighborhood.

Mr. B. N. Somerville finds that Kinnondale hall is farther away than ever now as he went to the dance on Thursday and never got home until Saturday afternoon. Can anyone tell us the reason (why).

Mr. Dan Jensen is out on his homestead fencing and summerfallowing. Good for him it helps to improve our country and that's what we need.

Mr. Jack Erbb and Mr. Giff Davys are so busy turning over the sod that they hardly find time to eat now a days

German Ability in the War

There has been far too much laudation of German ability in this war. When one considers the vast amount of forethought given by the Germans to the war and the mobilization for a period of forty years of the best brains of the country toward the one end of military success and then surveys the results achieved one is not tempted to envy the Germans for their cleverness, but rather to think how much better the French, the Americans, or the English would have done the job if they had given their mind to it. The Germans in international politics remind us of the dull schoolboy who, having worked out with immense industry an enormous sum in multiplication and division quite correctly to thirty places of decimals, manages at the end to produce a widely incorrect result by pointing his decimals two or three places out.

One piece of land at the Gleichen Indian Reserve land sale brought \$47 per acre.

Tenders for School Building.

Sealed Tenders will be received by the Board of Trustees School District No. 3459, Amethyst, at the Office of the Secretary-Treasurer, up to noon, June 30th, 1917, for the erection of a frame school building. Plans and Specifications may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00, which will be returned on receipt of a bona fide tender with plans and specification. The lowest or any tender will not necessarily be accepted.

Plans and Specifications can be seen at The Press office any time.

C. B. STORMS, Sec.-Treas.
May 26th., 1917. Amethyst, Alta.

Lomond District

The breaking bottom is again playing a part of the farms in this district. Farmers who had quit breaking have started again, in some cases breaking a piece for rye or some other pasture for their stock. Those with much summerfallowing to do have commenced

Adolph Blank expects to be a visitor in Lethbridge on Sunday.

Mrs. Dave Munroe has commenced collecting for the relief of Belgian children. A creditable sum has already been received and other donations will be gratefully received for the carrying on of this good work.

Gasolene and oil are being taken into this district in large quantities, indicating that tractors are busy in this locality.

Contractors from Crossfield are busily engaged on the road south of town, for the betterment of traffic for the south people. Much work in this line can be done on the roads leading to town, thus enabling the farmer to haul larger loads of grain in the minimum length of time.

Tom Chapman is erecting a fine barn. He has a couple of doukabours on the job.

Gordon Elliott is going to build an addition to his house, he is hauling lumber now.

The small lads in town are imitating their seniors these nights with bat, ball and gloves. These will be our future ball team, and it promises to be a creditable one.

A board of trade would be a very good organization for the town. It is progressing favorably but a good-natured boost would help to keep the ball a rolling.

Ed. Bannen's uncle from near Duluth is visiting with him. He likes the look of crop and the country in general and he may decide to stay here.

Mrs. Clansfield is in town nursing Mrs. Webster through an attack of the measles.

J. F. Thael of Lethbridge has a man representing them in this district canvassing in the interests of the former's tailoring business. He again visits this locality in September.

The many cars from Travers visiting Lomond's base ball game yesterday returned home quietly. They must be law-abiding citizens for it was against their principal to attract attention.

CHEMIST DRUGGIST

The modern farm requires expensive buildings. In a few years these rapidly deteriorate unless protected by good paint.

SHERWIN-WILLIAMS PAINTS AND VARNISHES FOR FARM USE

No farm owner can afford to leave his farm buildings unpainted. When new they appear to stand the weather alright, but surely and gradually the lumber begins to crack and check, decay starts, and before you realize it you have a leaky, draughty barn, and expensive repairs are necessary.

The regular use of paint means a small outlay occasionally, but it keeps your buildings as good as new.

S-W Barn Red is a special paint for painting farm buildings. It is economical in price and it gives good service. It is one of the full line of Sherwin-Williams Paints and Varnishes which we carry in stock.

Bow City

A 35 horse power tractor, pulling twelve plows, is busy at work across the river breaking up the Lane ranch. It is said Mr. Lane intends to break up over five hundred acres.

The crops around Bow City never looked better and if hail, blight and frost will stay away there will be some bumper crops in this district.

In a short time there will be very few farmers out this way but what will own an automobile—or at least a Ford. And why not? If any man should have a car it is the farmer who lives fifteen or more miles from town.

Mr. Charlie Westgate, who joined the Transport section of the Canadian Forces, has been drafted into the infantry and will be in France by this time.

Mr. Arthur Scroggie of the Field Artillery has crossed the Channel with his Battery to France. His letters home about his experiences in England were very interesting.

Miss Smith and nephew Ward are visiting at Mrs. C. R. Westgate's. She received the sad news lately that her brother Ernest Smith had fallen at Vimy Ridge. Pte. Smith enlisted from Calgary and was well known around Shephard and Bassano where he followed ranching for a number of years.

Mrs. D. A. Scroggie entertained the ladies of Bow City on Tuesday afternoon to remind Mrs. W. H. Moore that the day was her birthday.

Mr. W. Campbell, of Campbell Bros. returned the other day from Saskatchewan looking none the worse for his sojourn in that fertile province.

MRS. HUGH L. ROBINSON AN APPRECIATION

The late Mrs. Robinson passed away at the residence of Mr. Geo. Robinsons Lethbridge May 2nd, having gone down there in January to receive

special medical attention. But all that skill and love could do was of no avail and a throat complication setting in at the last hastened her end.

Mrs. Robinson had lived around Bow City for a number of years and was esteemed very highly by all who knew her. Her home was a blessing to all who entered it, and it can be said of her that the crown of her life was her unselfishness and thoughtfulness of others. Although she had not been in good health for some years yet she gave freely of her time and strength to every good work. Much of the success of the Red Cross Society at Bow City is due to her devotion and interest. Her friends showed their appreciation of her services by making her a life member while sick at Lethbridge, a recognition that Mrs. Robinson valued very highly. An unselfish life is always grateful for any little thoughtfulness on the part of others and Mrs. Robinson's friends always noted how thankful she was for any little act of kindness. While Mrs. Robinson had many noble qualities of spirit she had also splendid qualities of mind and those who met her in social ways will not soon forget how much her bright spirit contributed to the enjoyment of the occasion. Mrs.

Robinson also had rare musical taste and ability and as her strength would allow helped in church services and social functions with her rich voice.

A memorial service was held in Bow City Hall on the Sunday following her demise, the large attendance showing the sympathy of the community for her sorrowing husband.

Using Grass to Make Paper With

Although several of the largest paper mills in England have been forced

to shut down because the government stopped the importation of pulpwood, many others have managed to keep going by utilizing grass which they obtain from Scotland, the Fenlands and India.

Printing paper and notepaper is being made from grass mixed with other materials. The cheapest fibre is obtained from rags which are no longer exported. Rag cuttings are now worth \$140 a ton, which is still below the cost of wood pulp, now selling for \$150 a ton. It was worth \$40 a ton before the war.
